Professional Summary

A passionate and fast-learning Frontend Developer with hands-on experience in building advanced projects using modern web technologies. Completed several training programs and projects that demonstrate creativity, attention to detail, and a strong understanding of frontend development. Seeking a Fresh or Junior Developer role or internship to further enhance my skills in a dynamic and innovative environment.

Work Experience & Training

Remote Training | MAD Solutions

September 2024 – October 2024

- Completed a two-month remote internship focusing on frontend development.
- Built a fully functional e-commerce platform for home supplies using React.js.
- Acquired fundamental skills in Git, GitHub, teamwork, and soft skills through collaborative tasks.
- Developed several small training projects, the largest being the E-Commerce platform, to which I subsequently added a backend using ASP.NET with the assistance of Artificial Intelligence.
- Earned a certificate of experience.

Independent Web Developer

October 2024 – Present

- Dedicated the past two years to continuous self-directed learning and building numerous hands-on training projects from scratch.
- Focused on sharpening skills in modern web development frameworks and solving complex programming problems independently.

Personal Projects

- ---

E-Commerce Platform | [GitHub](#)
 - Developed a fully functional e-commerce website to sell home supplies.
 - Integrated dynamic product pages, responsive design, and secure payment simulation.
 - Built with React.js as part of MAD Solutions training.
 - Later expanded the project by developing a backend with ASP.NET entirely through AI assistance (my first "vibe coding" experience). *Note: The backend is not currently hosted.*
- **Interactive Gaming Platform | [GitHub](#)**
 - Designed and developed an interactive gaming platform using React.js and GSAP.
 - Included engaging animations, interactive videos, and multimedia content to enhance user experience.
- **Technical Store: E-Commerce MERN Stack | [GitHub](#)**
 - A full-stack e-commerce platform built with the MERN stack, featuring a modern and responsive user interface for tech products.
 - Includes secure user authentication and a dynamic shopping cart system to ensure a seamless end-to-end shopping experience.
- **Budget Analyzer: Financial Planning App | [GitHub](#)**
 - An advanced dual-currency budget and expense management web app (USD / SYP) built with Next.js and Redux Toolkit.
 - Specially designed to help freelancers and employees track funds, commit invoices, and manage loans and savings in real-time amidst severe exchange rate fluctuations.
 - Extensively utilized AI assistants (GitHub Copilot and Gemini) for productivity and problem-solving during development.
- **Personal Portfolio | [GitHub](#)**
 - Built a professional portfolio website using React.js to showcase projects, skills, and achievements.
 - Implemented responsive design for an optimal user experience across all devices.

Education

B.Sc. in Information Technology

Syrian Virtual University - Faculty of Information Technology, Fourth Year (Current)

Technical Skills

- ---

Programming Languages: HTML5, CSS3, JavaScript, TypeScript
- **Frameworks and Libraries:** React.js, Tailwind CSS, Next.js
- **Databases:** SQL Server, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code
- **AI Tools:** Gemini, Cursor, Copilot, ChatGPT, Codex
- **Additional Skills:** Responsive Design, API Integration, Problem-Solving, Debugging, Collaboration

Certifications

- ---

Experience Certificate | MAD Solutions
- Introduction to Artificial Intelligence | Edraak
- Introduction to Web Development with HTML, CSS, and JavaScript | IBM-Coursera
- Introduction to Cloud Computing | IBM-Coursera
- Introduction to IT Support | Google Coursera
- Getting Started with Git and GitHub | IBM-Coursera
